

5 Questions

You Must Ask Your “Solar Heating Provider”
To Know If They Are Qualified To
Handle Your System.

1 Does your company have experience installing and maintaining solar pool heating systems?

Choose a company that has experience installing the type of system you want and servicing the applications you select. Celestial Solar Pool Heating does! We've installed more than 55,000 solar pool heating panels in the last 15 years. Not to mention, we have a full service department to maintain any brand of solar pool panels.

2 How many years of experience does your company have with solar heating installation and maintenance?

The more experience the better. Request a list of past customers who can provide references. Celestial Solar Pool Heating does! We've been installing solar pool systems in the Las Vegas area for 15 years.

3 Is your company licensed or certified?

Having a valid plumber's and/or solar contractor's license is required in some states. Contact your city and county for more information. Confirm licensing with your state's contractor licensing board. The licensing board can also tell you about any complaints against state-licensed contractors. Celestial Solar Pool Heating is licensed! We've been a licensed and bonded contractor for the last 15 years, and our license is for one thing and one thing only: solar pool heating, because that's our passion.

4 Where are the solar panels being made?

Solar pool heating panels are made all around the world in many countries. It is very important that you thoroughly understand your solar pool heating panels origins. In many countries, quality control and the processes and materials used to make solar pool panels do not have strict regulations.

Try to buy from a company that has their solar pool panels made in the USA. Celestial Solar Pool Heating is an exclusive dealer for Iswim solar pool heating panels which are made in its 110,000 square foot factory in Odessa, Florida.

Solar pool heating panels have been around since about 1975 in the early 1990s Iswim reengineered solar pool heating panels to have the latest design innovations built into them, and made in usa

5 What is the standard warranty on solar pool heating panels?

The industry standard is between 8 and 12 years on individual panels. This is very important in the buying process if you can get three more years of warranty that's huge that's like getting an extended 30% warranty. At Celestial Solar Pool Heating, we offer a superior 12 year warranty
